EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Sachs on April 18, 2006.

The examiner's amendment changes the language of claim 1, line 7 from "...a single integral elongate barrel member..." to "...a unitary elongate barrel member..."

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-4 are allowed since the art of record neither anticipate or makes obvious an adapter device for converting a grenade launcher into a weapon for firing shot shells having a unitary elongate barrel member of a gauge for shot shell adapted to be received in, and to extend through and beyond both ends of the barrel of the host barrel assembly of the grenade launcher, said barrel member including a shell extractor, and a cap adapted to be mounted on an end of said barrel member opposite said shell extractor, said cap having a hollow circumferential step that is adapted for insertion into the barrel of the host barrel assembly. The most pertinent prior art of record is Nelson (5148620), which discloses a shot shell size adapter for use with a grenade launcher having an elongate barrel member of a gauge for shot shell adapted to be received in, and to extend

through and beyond both ends of the barrel of the host barrel assembly of the grenade launcher. However, the elongate barrel member disclosed by Nelson is not a unitary structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gabriel J. Klein whose telephone number is 571-272-8229. The examiner can normally be reached on Monday through Friday 7:15 am to 3:45 pm.
